

## RAIL MANAGEMENT: TRACING INSIGHTS

### THE ALL-IN-ONE RAIL MANAGEMENT SYSTEM FROM THE EXPERTS IN RAIL

The TransmetriQ Rail Management System (RMS) is a modular platform that gives your team single-source, timely insights and tools that enable you to manage and optimize your rail operations. TransmetriQ RMS eliminates the need for multiple systems to manage billing, tracing, asset health, and more. Custom dashboards give you exactly the data you want, exactly how you want it. Increase productivity and unleash your supply chain with the new TransmetriQ RMS.

### COMPLETE RAIL VISIBILITY AT YOUR COMMAND: TRACING INSIGHTS DASHBOARD

Tracing Insights leverages the same real-time, actionable event reporting you get with RailSight Monitor, plus:

- User-configurable insights that eliminate the distracting clutter and get you the data you need quickly, and
- Updated KPIs with more configurable elements

Whether you're looking for the number of bad orders in the last 48 hours or to monitor ETAs, the Tracing Insights Dashboard gives you exactly the visibility you need.

Insights Dashboard: Equipment Overview

### TRACING INSIGHTS FEATURES:

- Schedule custom reports via email
- Map visualization of shipments
- Alerting & exception management
- Enhanced shipment history
- AI & ML generated insights

## NEXT-GENERATION RAIL VISIBILITY AND OPERATIONS MANAGEMENT FROM THE INDUSTRY'S TRUSTED RAIL DATA SOURCE

Tracing Insights is powered by the RailSight CLM engine you know and trust, giving you immediate access to more than 9 million rail events each day and deeper short-line rail data. With a new, user-friendly interface and leveraging powerful analytical tools, Tracing Insights brings next-generation rail visibility to your team.

## RAIL MANAGEMENT SYSTEM: E-BOL

The new TransmetriQ E-Bill of Lading tool enables you to manage BOL activities directly from your visibility platform, giving you one place to create and send billing for any railroad.

## ABOUT TRANSMETRIQ

TransmetriQ is powered by Railinc. We're a team of transportation experts, UX designers, data scientists and critical thinkers developing insights and solutions that help our customers build businesses that compete and win. Powered by Railinc, the industry leader in rail data for more than 30 years, TransmetriQ products are uniquely positioned to meet your business needs, now and in the future.
